

TPC 950 G

Extreme pressure graphite grease

Description

Heavy content in solid lubricants to resist heavy loads, shocks and heavy stresses. High thermic resistance. Does not get dry at high temperatures. High mechanical resistance in presence of water, possesses a good pumpability.

Applications

Can be used in very wet environment. Casting ladle trunnion lubrication.

Technical data

Operating temperatures: -25°C to +180°C

NLGI Grade: 1

Load: 600 kg
